

pH electrode for general use, 10 m fixed cable

Product #: LZX472
AED Price: Contact Hach

Suitable for pH measurements in waste water treatment plants. Without in-built temperature element.

Specifications

Application:	WW
Cable length:	10 m fixed cable
Connector:	Fixed cable
Diaphragm:	double ring diaphragm, porous PTFE
Electrolyte:	KCl/AgCl + KNO ₃ gel
Immersion depth:	105 mm
Length:	140 mm
Measuring range:	0 - 14 pH
Operating temperature range:	0 - 80 °C
Pressure range:	3.5 bar
Reference electrode:	Ag/AgCl
Reference system:	Ag/AgCl
Temperature sensor:	None
Warranty:	6 months
