

pH electrode for general use, 10 m fixed cable

Product #: LZX472

AED Price: Contact Hach

Suitable for pH measurements in waste water treatment plants. Without in-built temperature element.

6 months

Specifications

Warranty:

Application: WW

Cable length: 10 m fixed cable
Connector: Fixed cable

Diaphragm: double ring diaphragm, porous PTFE

Electrolyte: KCl/AgCl + KNO3 gel

105 mm Immersion depth: 140 mm Length: 0 - 14 pH Measuring range: 0 - 80 °C Operating temperature range: Pressure range: 3.5 bar Reference electrode: Ag/AgCl Reference system: Ag/AgCl Temperature sensor: None
