

Silica Reagent Set, 1-100 mg/L SiO_2

Product #: **2429600**

AED Price: Contact Hach
Available

Hazardous

Powder reagents in sealed packages for the determination of Silica, Silicomolybdate Method. For 10 mL sample: pk/100.

Specifications

Instrument:	All except DR/3000, DR/2000, DR/820, PC II
Measuring range:	1 - 100 mg/L SiO_2
Method:	Silicomolybdate
Method number:	8185
Number of tests:	100
Parameter:	Silica
Platform:	Powder Pillows
Sample size:	10 mL
Special Features:	HR, 10 mL, 100 tests

Required Accessories

- Gloves, Disposable, Powder Free, Nitrile, Large (Item 2550503)
