

## Intellical ISENA381 Sodium ( $\text{Na}^+$ ) Ion Selective Electrode (ISE), 1 m cable

**Product #:** ISENA38101  
**AED Price:** Contact Hach  
**Ships within 1 week**

Intellical ISENA381 is a digital, combination, sodium ion selective electrode (ISE) with a refillable double junction reference and built-in temperature sensor. The electrode measures sodium concentration in water samples. A 59 mL bottle of 0.02 M  $\text{NH}_4\text{Cl}$  Electrode Filling Solution is included with the probe. The laboratory version of this ISE is shockproof with its Zeonor plastic body. The Intellical ISENA381 probe is available with a 1 or 3 meter cable and is intended for laboratory use. The ISENA381 is ideal for measuring sodium concentrations in wastewater, drinking water and general water quality applications.

### **Provides fast, stable, and accurate response**

Refillable, easy to maintain design with a unique built-in-temperature sensor. Intellical digital probes lock on the result when the measurement is stable, removing the guesswork in having a moving number.

### **Ultimate traceability in measurement history**

Stored time and date stamp for each measurement, operator and sample ID, calibration history, parameter, and probe serial number.

### **User alerted when re-calibration is needed**

No guesswork needed to provide the most reliable and accurate results with each measurement.

### **Can be moved between meters without the need to re-calibrate or re-enter measurement settings**

Ideal for a multi-user environment with multiple HQD series Laboratory and Portable meters.
