

pH electrode 5336T w/ Pt1000, 3x diaphragms, 0-80 °C, 6 bar, MP-4 connector

Product #: LZU5336T.97.002
AED Price: Contact Hach

pH electrode 5336 with integrated Pt1000 temperature sensor, gel electrolyte and MP-4 plug. 0 - 14 pH, 0 - 80 °C, up to 6 bar. 3x ceramic diaphragms.

Applications: swimming pools, drinking water, gas

scrubbing towers, boiler water, detoxification,

wwtp outlet water, etc.

Specifications

Cable connection:	MP-4
Diameter:	12 mm
Diaphragm:	3 ceramic
Electrolyte:	Gel
Length:	120 mm
Material:	Sensor: glass
Measuring range pH:	0 - 14 pH
Parameter:	pH
Pressure range:	Up to 6 bar
Reference system:	Encapsulated Ag/AgCl crystals
Temperature range:	0 - 80 °C
Temperature sensor:	Pt1000
Warranty:	6 months
