

Polymetron 8402B pH glass electrode without reference electrode

Product #: 368402,00000
AED Price: Contact Hach

It is made from spherical glass for low conductivity samples

Specifications

Cable connection:	S7 connector
Diameter:	12 mm
Length:	120 mm
Load:	15 - 400 MΩ
Material:	Spherical glass
Measuring range:	0 - 12 pH
Operating temperature range:	-20 - 80 °C at 0 - 95% RH (non-condensing)
Special notes:	For low conductivity samples
