4-20 mA Output Expansion Module for SC200 Universal Controller (provides 3 additional mA Outputs)

Product #:	**9334605**
AED Price:	Contact Hach
Available	

When additional communication configurability is needed for process control, the 4-20 mA output module can be added into the controller to include three additional analogue outputs. This module connects to the network card on the inside of the SC200.

Specifications
