Product #: **2834100** Hazardous

AED Price: Available

Contact Hach

For total chlorine determination with the AT1000 Chlorine Amperometric Titrator. Includes Swiftest dispenser and vial containing enough reagent for approximately 300 tests.

Fast, easy reagent addition
Ideal for high volume total chlorine testing using Hach's high quality potassium iodide powder.

Just squeeze to add powder
No need to open reagent containers, less packaging waste

Color coded by parameter
The handle of the Swiftest dispenser is color-coded for easy parameter recognition.
